Newcastle received the [World Habitat Awards 2020](#) Gold Award for our homelessness prevention work .
The judging panel said:

“Newcastle’s approach has prevented over 24,000 households from becoming homeless since 2014. Poverty & deprivation were already long-standing issues in the city before a decade-long programme of austerity.”

“There are things that others can learn from this project, in particular linking housing, homelessness, the voluntary sector, social care & welfare – there’s no way you can end homelessness unless you make those links.”

Q3 2020-21 update: Transitions programme – refugees & people with no recourse to public funds (NRPF)

What we're doing & going to do

Current work & progress from December HPF

- Developed a programme of work to **build on our understanding & responses to the issues experienced by residents seeking asylum, with refugee status & with no recourse to public funds**, focused on supporting them to integrate into the community & have the foundations for a stable life
- **Identifying residents who may need to apply to the European Union Settlement Scheme** & targeting advice & support to them

The next steps

- **Progressing the programme**, starting with the development work related to the **Local Authority Asylum Seeker Liaison Officer role**, the links with **YHN & statutory homelessness advice & assessments**, & the provision of **specialist welfare benefits advice**
- **Co-ordinate support & transitions** for people with NRPF as Next Steps Accommodation Programme funding ends – utilising a **case management** & **checklist** approach

The upcoming opportunities

- Securing **additional accommodation** to match **unpredictable demand**
- **Using the learning from the approach to this programme of work to inform how we support residents at other points of transition**, such as leaving local authority care, an institution (such as a hospital or prison) or the armed forces; & those who have slept rough or experienced illness, bereavement, separation, eviction & / or unemployment

What we're doing & going to do

Current work & progress from December HPF

Current work & progress from December HPF

- Agreeing the **mapping of advice & support** provided to residents living in private rented tenancies to help them to sustain their tenancies
- **Targeted proactive advice & support through the Active Inclusion multidisciplinary team via prioritised 'routes' where residents are identified as being at potential risk of homelessness**
- **Understanding the opportunities** (data & partnership arrangements) **to proactively target** those residents who we know may be at an increased risk of homelessness

The next steps

- **Improve our understanding** of the potential gaps in advice & support that may exist & where the greatest potential risks of homelessness are
- Agree any **strengthening of partnership arrangements** & / or whether there are any **priority areas for the proactive targeting of advice & support** to residents living in private rented tenancies, including how capacity could be aligned & / or secured to meet those gaps if the risks are deemed significant enough

The upcoming opportunities

- **Using data & partnership arrangements to build on & maximise the use of touch & trigger points**, such as debt to & awards of discretionary support by services & organisations
- **Developing coordinated arrangements** for the above across partners, taking into account the differentiation between roles & who is best placed to target advice & support / respond

What we're doing & going to do

Current work & progress from December HPF

The upcoming opportunities

- **Incorporating the learning** from the YHN & by the Fairer Housing Unit (e.g. on changes to the rent escalation policy & on 'customer journeys')
